

# Moshikou Cultural Relics Conservation District Plan 北京模式口大街文物保护区规划

Beijing / 北京  
2016 / 2016年  
Arup

The planned area of Beijing Moshikou Cultural Relics Conservation District is 35.6 hectares. The green ecological planning of this area has fully considered the ecological background, the existing cultural texture and land characteristics of the area. In conjunction with the overall renovation program, the green ecological space system has been suggested to be reconstructed, and comprehensive strategies of mountain torrents control, stormwater management and sponge city development have been proposed to create a demonstrative mode for green transformation of historical and cultural conservation districts in the mountainous area.

北京模式口大街文物保护区规划面积为35.6公顷。绿色生态规划的规划充分保护模式口地区的生态本底，在充分尊重模式口地区现有文化肌理和地块特色的基础上，配合更新改造整体方案，重构了绿色生态空间体系，提出了山洪控制、内涝控制和海绵城市的综合策略和技术建议，打造了浅山地区历史文化保护区的绿色改造典范。

- A demonstrative mode for green transformation of historical and cultural conservation districts in the mountainous area
- A green ecological space system considering the ecological background, the existing cultural texture and land characteristics of the area
- 浅山地区历史文化保护区的绿色改造典范
- 在充分尊重模式口地区现有文化肌理和地块特色的基础上，重构了绿色生态空间体系
