ARUP

- 1<sup>st</sup> China project under the C40 Climate Positive Development Programme
- 8.63km<sup>2</sup> former industrial area for sustainable urban development
- 中国第一个C40正气候项目
- 8.63平方公里的老工业园区实现了可持续的更新和发展

The New Shougang High-end Industrial Comprehensive Service Park is the first C40 climate positive project in China and the 19th climate positive project in the world. The project rehabilitated and regenerated 8.63km<sup>2</sup> of industrial land formerly the site of a steel mill. In the planning of the development, characteristics of the ancient industrial park have been thoroughly considered. To redevelop the pilot site, a low-carbon and sustainable urban development strategy has been proposed that includes elements like green buildings, clean energy, green transport, waste management, water resources, green spaces, heritage and rehabilitation of contaminated sites

新首钢高端产业综合服务区是中国第一个C40正气候项目，全球第19个正气候项目。绿色生态规划的规划面积为8.63平方公里。规划利用老工业园区工业遗迹特点，可持续利用资源，通过生态空间、能源、水资源、废弃物等的综合策略，达到减低碳排放的目标。
